

Architectus Project Kick-Off

CHLOE NGUYEN

PHD CANDIDATE @ ARCH_MANU CENTER

SCHOOL OF [INFORMATION SYSTEMS](#) & [TECHNOLOGY MANAGEMENT](#), UNSW

NOVEMBER 2024

Overview: Embodied Carbon Estimation

Study 1: Case Study

- Embodied carbon journey @ Architectus
- The implementation and use of OneClickLCA @ Architectus
- Outcome: Framework

Study 2: Action Design Research

- Designing a digital solution
- Outcome: System design

Overview: Embodied Carbon Estimation

Study 1: Case Study

- Embodied carbon journey @ Architectus
- The **implementation** and **use** of OneClickLCA @ Architectus
- Outcome: Framework

Basis for Study 2

Data collection (first round): November-December 2024

Study 1: Case Study

Embodied carbon journey @ Architectus

The **implementation** and **use** of OneClickLCA at Architectus

Embodied carbon journey
@ Architectus

- What are the strategies for sustainability & embodied carbon?
- What are the tools for embodied carbon estimation and management?
- What are the challenges?
- What is the digital transformation journey for embodied carbon?

Implementation journey
of OneClickLCA

- When was the adoption?
- What motivated the adoption?
- Who initiated the implementation?
- What was the process of vendor contact?
- What were the challenges?
- What are the modules of OneClickLCA?

OneClickLCA for verification in
Barker's College Hub project

- What was the use of OneClickLCA?
- What functions of OneClickLCA were used?
- How was the process?
- What were the changes in practice?
- What were the challenges?
- What was the result?

Study 1: People

Principal Level

Sustainability Team

Team Level

10 Interviewees (Tentative)

5 Interviewees (Tentative)

Embodied carbon journey
@ Architectus

Implementation journey
of OneClickLCA

OneClickLCA for verification in
Barker's College Hub project

- Sustainability & embodied carbon strategies
- Embodied carbon practices and tools
- Digital transformation for embodied carbon

- Adoption motivation
- Implementation process
e.g. internal requirements, planning, vendor contact, deployment, knowledge transfer, training, testing, etc.
- Functional modules

- Specific users in the project
 - Functions used
 - Changes and impacts
 - Challenges
- Project stages and outcomes

Study 1: Documents

Examples

Embodied carbon journey @ Architectus

- Sustainability & embodied carbon strategies
- Embodied carbon project reports

Implementation journey of OneClickLCA

- Motivation
e.g. requests, issues raised, sustainability goals, client requests
- Implementation timeline
- OneClickLCA training document

OneClickLCA for verification in Barker's College Hub project

- Project timeline
- Use of OneClickLCA
- Embodied carbon calculation documents
- Lessons learned, project reflection
